

# ABL (STEVENS) Resin & Glass

## CRYSTALCOAT

### **Product description:**

A high performance, single pack moisture curing urethane coating.

It can be used on concrete, stone, brickwork, wood and other traditional building materials.

It is high gloss and dries down to give a finish which offers resistance against some aggressive chemicals, superb adhesion/abrasion resistance and flexibility combined with excellent non-yellowing properties.

### **Maximum VOC content (RFU):**

0.480kgs/ltr

### **Regulations/Compliance:**

2004/42 11A SB (I)500

### **Colour:**

Clear

### **Technical Information:**

Coverage—16m<sup>2</sup> per litre single coat.

Flashpoint---24°C

Temp resistance—120°C
